

All in-person sessions last 45-60 minutes and include:

- A sensory warm up
- A mystery bag to introduce the theme

- A story on the theme of the session
- A movement warm up or game
- Our Little STEAMers song
- Three hands-on STEAM activities

BRILLIANT BRIDGES

Build bridges from different materials including books and craft sticks.

SPACE EXPLORERS

Create star gazers, launching a rocket and printing Moon surface pictures.

CODING UNPLUGGED

Explore logic and ordering with numbers, rhymes and giving instructions.

MAGNIFICENT MACHINES

Investigate simple machines, including pulleys, ramps and levers and axles.

WOW WITH WATER

Explore the basics of the water cycle, absorption and dissolving.

CRAZY CATERPILLARS

Explore life cycles with maths engineering, a reaction and making zip line butterflies.

BODY BUDDIES

Explore and investigate our hearts, our digestive systems and our skeletons.

CHEMISTRY CHAMPIONS

Create chemical reactions and mixtures with different experiments.

DISCOVER DINOSAURS

Make fossils, dig like paleontologists and create dinosaur skeletons.

SAFARI STEAM

Explore with habitats, animal tracks and absorption giraffe skin pictures.

FLOAT YOUR BOAT

Investigate the affect of weight and problem solve to build simple boats to support cargo.

SOUND SCIENCE

Explore vibrations by investigating and building different instruments.

ECO MAKERS

Learn about ways to reduce, reuse and recycle with games, making and an experiment.

CHRISTMAS STEAM

Stack Christmas trees, make absorption trees and investigate toy chutes.
